We've reviewed your Direct Debit

Each spring we check your payments against your actual usage. Winter cost more than your current plan assumed, so from 1 June we're resetting your monthly Direct Debit from £61 to £74. This spreads next winter's cost evenly across the year.

If you'd rather keep paying each bill in full as it arrives, or set a different amount, change it any time at [harwood-energy.example/payments](#).
