### Interest (variable) you currently pay us on overdrawn balances

Within an arranged overdraft limit: **30.4% NAR · 34.9% EAR**

Without an arranged limit, we simply refuse or return payments — we do not charge unarranged overdraft interest on this account.

### Interest (variable) we currently pay you on your credit balance

**0.00% AER** — this account does not pay credit interest. Our savings accounts are at [ferrandbank.example/savings](https://ferrandbank.example/savings).

### Understanding the jargon

EAR (Effective Annual Rate) is the cost of an overdraft stated as a yearly rate that takes account of compounding, but not fees. NAR (Nominal Annual Rate) is the simple yearly rate before compounding. AER (Annual Equivalent Rate) shows what a savings rate would be if interest were paid and compounded once each year. Overdraft interest is worked out daily on the amount you are overdrawn and charged monthly.
