Our reference	FD/2643
Date	29 June 2026
Surveyed	24 June 2026
Prepared by	R. Dray

Dear Mr Marchbank,

Further to our survey on 24 June 2026, we are pleased to quote for the supply and installation of an air source heat pump at the above address, to replace the existing gas combination boiler. The system proposed is a Thermik T60 air source heat pump with a 170 L unvented cylinder, sized against our measured heat loss of 5.1 kW.

Item	Amount
Thermik T60 6 kW air source heat pump unit	£3,890.00
170 L unvented hot water cylinder and fittings	£1,120.00
Installation labour including removal of existing boiler and making good of pipework	£2,760.00
Radiator upgrades — 2 radiators supplied and fitted	£620.00
Chemical system flush	£290.00
Heating controls and room thermostat	£340.00
Commissioning and building-control notification	£210.00
Waste removal and disposal of old boiler	£250.00
Total (materials and labour)	£9,480.00
VAT — zero-rated installation	£0.00
Total payable	£9,480.00

The installation qualifies for the government low-carbon heating grant of £7,500, which we administer on your behalf and deduct from the final invoice, bringing the amount payable by you to **£1,980.00**.

Terms

This quotation is valid for 30 days from the date above. Works to be scheduled on acceptance; allow four days on site. Payment: 40% deposit with order, balance on completion and commissioning. Workmanship guaranteed for 12 months; the heat pump carries the manufacturer's 5-year warranty and the cylinder 10 years, subject to annual servicing (£95 per visit if carried out by ourselves).

Exclusions

Making good of decoration; upgrade of the electrical consumer unit should the district network operator require it; scaffolding (not anticipated); disposal of any asbestos-containing material; alterations to pipework buried in solid floors. Any such works would be quoted separately before proceeding.

We thank you for the opportunity to quote and would be pleased to answer any questions.

Yours sincerely,

R. Dray
