Welcome to your Instant Saver

Interest on your Instant Saver is calculated daily on your balance and paid into the account on the last day of each statement quarter. Your rate is 3.92% gross / 4.00% AER (variable). AER stands for Annual Equivalent Rate: it shows what the rate would be if interest were paid and compounded once each year, so you can compare accounts fairly.

Interest on this account

Your current rate is **3.92% gross / 4.00% AER (variable)**. Interest is calculated daily on your full balance and paid on the last day of each statement quarter. Interest is paid gross, without tax deducted; whether you owe tax on it depends on your personal circumstances and allowances.

What AER means

AER (Annual Equivalent Rate) shows what the interest rate would be if interest were paid and compounded once each year, so you can compare savings accounts fairly. The gross rate is the flat rate before compounding within the year is taken into account.

**Withdrawals.** The Instant Saver has no notice period and no withdrawal penalty. Transfers to your Ferrand current account arrive instantly.

**How your money is protected.** Your eligible deposits at Ferrand Bank are protected up to £85,000 per person by the UK deposit guarantee scheme; the limit applies across all accounts you hold with us.

**Certificates of interest** for each tax year are available from Ferrand Online Banking from mid-April, or on request.

**If you have a complaint,** contact us first. If you are unhappy with our final response you can refer the matter free of charge to the statutory ombudsman for financial services.
